# VETRO FINO

Free space. Light and limitless.

## VETRO FINO

Our glass roof system creates relaxing outdoor moments – all year round.

Its unique slimline design blends perfectly into any architectural style thanks to its timeless, cubic style. The modular shading and protection elements are fully integrated into the sophisticated design. Design doesn't get any better than this.

reddot winner 2022

Slim frame for maximum daylight inside and unobstructed views

Dimmable lighting for every mood

Vertical shading for better glare protection and greater privacy

Integrated, seamless roof shading

Capable of withstanding very high snowloads

**VETRO FINO** provides shade  
seamlessly and elegantly.

Or offers unrestricted views  
of the great outdoors.

Turn night into day and winter into summer. So easy to do with the glass roof VETRO FINO and integrated lighting, or full glazing. You decide when it's time for outdoor living.

Optimal protection on all sides. The retractable side and front shades provide protection against high winds and low sun while ensuring extra privacy.

Looking for extra protection with a clear view? Thanks to the transparent side and front glazing, you'll be enjoying the sunny side of life even in heavy rain.
